COURSE OF INSTRUCTION, EXPENSES, &c.
IN
YALE COLLEGE.

Academical Department.

TERMS OF ADMISSION.

CANDIDATES for admission to the Freshman Class, are examined in Cicero's Select Orations, the whole of Virgil, Sallust, Jacobs's, Colton's or Felton's Greek Reader, the first three books of Xenophon's Anabasis, Andrews and Stoddard's or Zumpt's Latin Grammar, Sophocles's, Crosby's or Kühner's Greek Grammar, Arnold's Latin Prose Composition, first XII Chapters, to the Passive voice, Latin Prosody, Thomson's Higher Arithmetic, English Grammar, Geography, and Day's Algebra to Quadratic Equations.*

Candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter. No one can be admitted into the Senior Class, after the close of the January vacation.

The regular examination for admission into College, commences on the Monday preceding the public Commencement; but

* The deficiency of most candidates for admission, in the Latin and Greek Grammars, Latin Prosody and Composition, Geography, and the theoretical part of Arithmetic, makes it necessary to remark, that the examination in these subjects will be strict and comprehensive.

persons may be examined for an advanced standing in any other part of the collegiate terms. It is requested that they may not be offered in the vacations, except for very special reasons.

No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismissal in good standing. The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation, on satisfactory evidence of an unblemished moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

COURSE OF INSTRUCTION.

THE Faculty, to whom are committed the government and instruction of the undergraduate students, consists of a President; a Professor of Chemistry, Mineralogy, and Geology; a Professor of Divinity; a Professor of Natural Philosophy and Astronomy; a Professor of Rhetoric and English Literature; a Professor of Mathematics; a Professor of Moral Philosophy and Metaphysics; a Professor of the Latin Language and Literature; a Professor of the Greek Language and Literature; and eight Tutors.

The whole course of instruction occupies four years. In each year there are three terms or sessions.

The three younger classes are divided each into three parts; the Senior Class into two parts. Each of the four classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two. The following scheme gives a general view of the studies pursued in each term:—

Astronomy;
- III. { Political Economy, Wayland's.
Evidences of Christianity.

Changes in the Greek and Latin authors recited are sometimes introduced in the latter part of the course ; but these changes do not affect the *amount* of Greek and Latin required of those who apply for admission to an advanced standing.

The Kent Professor of Law gives instruction to the Senior Class during the third term.

A short course of Anatomy and Physiology, consisting of about twenty lectures, illustrated by natural and artificial preparations, is given to the Senior Class in the second term.

In addition to the recitations in the books here specified, the classes receive lectures and instruction from the Professors of the Greek and Latin languages ; the Junior Class attends a course of experimental lectures on Natural Philosophy ; and the Senior Class, courses of lectures on Chemistry, Mineralogy, Geology, Meteorology, Astronomy and History.

The lectures of Professor SILLIMAN on Chemistry, are given during the first term ; those on Mineralogy during the first or second term, and those on Geology during the third term. The lectures of Professor OLMSTED, on Experimental Philosophy, addressed to the Junior Class, commence the third Tuesday of November, and are continued nearly at the rate of two a week, during the remainder of the College year. His lectures on Meteorology and Astronomy to the Senior Class, commence with the second term, and are continued daily to near the middle of the term, when those of Professor KNIGHT on Anatomy begin, and occupy the remainder of the term.

In the department of Elocution, the Freshman Class, in several divisions, have during the year recitations and exercises upon the elementary principles of the science, conducted by the Teacher of Elocution ; and the Sophomore and Junior Classes, frequent private exercises, preparatory to public declamation in the Chapel before the Professor of Rhetoric and the members of the class.

The members of the several classes attend also the private exercises and lectures of the Professor of Rhetoric. A course of lectures is delivered to the Senior Class, on the Oration of Demosthenes on the Crown. The Senior Class have exercises

twice a week in English composition; the Senior and Junior classes twice a week in forensic disputation; the Sophomore Class once a week in English composition; the Freshman Class once a week in written translation from the Latin. The Junior, Sophomore and Freshman Classes are also instructed in Latin composition.

Students, who desire instruction in the modern languages, may receive it, at their own expense, from competent teachers, engaged for the purpose by the Faculty.

The object of the system of instruction to the undergraduates in the College, is not to give a *partial* education, consisting of a few branches only; nor on the other hand, to give a *superficial* education, containing a little of almost every thing; nor to *finish* the details of either a professional or a practical education; but to *commence* a *thorough* course, and to carry it as far as the time of the student's residence here will allow. It is intended to maintain such a proportion between the different branches of literature and science, as to form a proper *symmetry* and *balance* of character. In laying the foundation of a thorough education, it is necessary that *all* the important faculties be brought into exercise. When certain mental endowments receive a much higher culture than others, there is a distortion in the intellectual character. The powers of the mind are not developed in their fairest proportions by studying languages alone, or mathematics alone, or natural or political science alone. The object, in the proper collegiate department, is not to teach that which is peculiar to any one of the *professions*; but to lay the foundation which is common to them all. There are separate schools of Theology, Law and Medicine, connected with the College, as well as in various parts of the country, which are open to all who are prepared to enter on professional studies. With these the undergraduate course is not intended to interfere. It contains those subjects only which ought to be understood by every one who aims at a thorough education. The principles of science and literature are the common foundation of all high intellectual attainments. They give that furniture, and discipline, and elevation to the mind, which are the best preparation for the study of a profession, or of the ope-

rations which are peculiar to the higher mercantile, manufacturing, or agricultural establishments.

For a more particular view of the plan of education in the College, see Reports on the Course of Instruction, published in Vol. XV, of the American Journal of Science.

Public examinations of the classes are held at the close of each term on the studies of the term; and twice in the College course, at the close of the Sophomore and Senior years, on the studies of the two preceding years.

The public Commencement is held on the last Thursday in July of each year. The first term begins seven weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the first Wednesday in May and continues till Commencement. The intervening periods of seven, two, and three, or as the case may be, four weeks, are assigned for vacations.

No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

PUBLIC WORSHIP.

Prayers are attended in the College Chapel every morning and evening, with the reading of the Scriptures; when one of the Faculty officiates, and all the students are required to be present. They are also required to attend public worship in the Chapel on the Sabbath, except such as have permission to attend the worship of other denominations in town, to which their parents belong.

EXPENSES.

The College bills are made out by the Treasurer three times a year, at the close of each term; and are delivered to the students, who are required to present them to their parents, guardians, or patrons. The bills are payable at the close of the term, and if not paid by the expiration of one week after the commencement of the succeeding term, the student is liable to be prohibited from reciting.

The annual charges in the Treasurer's bill are,

For tuition, - - - - -	\$33 00
For rent of half chamber in College, $7\frac{1}{2}$ to $16\frac{1}{2}$	
dollars—average, - - - - -	12 00
For ordinary repairs and contingencies, -	2 40
For general damages, sweeping, &c. about	3 60
For expenses of recitation rooms, - -	3 00
	<hr/>
	\$54 00

Besides this, the student pays for damages done by himself, for tuition in optional studies during part of Junior and Senior years, and a few additional charges on graduating.

Any person admitted to an advanced standing, unless coming from another College, pays a sum to the Treasurer, equal to half the tuition money, which has been paid by others of the class which he enters.

Notes of the several incorporated banks in this State, and such other notes as are taken by the banks in the city of New Haven, are received in payment of the bills. Drafts on Boston, New York or Philadelphia, may be transmitted direct to the Treasurer.

Board is obtained at prices varying from \$1 60 to \$3 00. To a majority of the students the cost of board is not above \$2 00 a week. Fuel is procured by the Corporation and distributed to those students who apply for it, at cost and charges, and must be paid for at the time of ordering.

No students are permitted to take lodgings in town, except when the rooms in College are not sufficient to accommodate all.

The students provide for themselves bed and bedding, furniture for their rooms, lights, books, stationery and washing. There are also, in the several classes and literary societies, taxes of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

The following may be considered as a near estimate of the *necessary* expenses, without including apparel, pocket money, traveling, and board in vacations :

Treasurer's bill as above,	-	-	\$54	\$54
Board, 40 weeks,	-	-	from 64	to 100
Fuel and lights,	-	-	" 6	" 15
Use of books recited, and stationery,			" 5	" 15
Use of furniture, bed and bedding,			" 5	" 15
Washing,	-	-	" 10	" 18
Taxes in the Societies, &c.	-	-	" 6	" 8

Total, \$150 to \$225

Students who occupy the recitation rooms, save their room rent and fuel in winter, and receive a small compensation in summer. Cheap board may be obtained in clubs, by those students who wish board at a lower rate than is common in boarding houses.

Indigent students are supplied with most of the text-books, without expense, from the Benevolent and Education Libraries.

A sum somewhat exceeding two thousand dollars, derived chiefly from permanent charitable funds, is annually applied by the Corporation for the relief of indigent students, who to the number of about one hundred have their tuition either wholly or in part remitted.

With regard to apparel, and what is called pocket money, no general estimate can be made. These are the articles in which the expenses of individuals differ most ; and in which some are unwarrantably extravagant. There is nothing by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents. What is more than sufficient to defray the ordinary expenses,

will expose the student to numerous temptations; and will not contribute either to his respectability or happiness.

As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, transmits an account of the expenditures, &c., for which he charges a commission.

SCHOLARSHIPS AND PREMIUMS.

THE Berkeley Scholarship, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament, Xenophon's *Cyropædia*, and Homer's *Iliad*, Cicero's *Tusculan Questions*, Tacitus (except the *Annals*,) and Horace; provided he remains in New Haven as a graduate one, two or three years.

The Clark Scholarship, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination on the studies of the College course; provided he remains in New Haven as a graduate one or two years, pursuing a course of study (not professional) under the direction of the Faculty.

The Bristed Scholarship, yielding about eighty dollars a year, is awarded to the student in the Sophomore or Junior Class, whenever there may be a vacancy, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree.

A Scholarship, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate enjoys the annuity under certain conditions during the four years of his College course.

The Townsend Premiums, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

In the other classes premiums are also given for Latin and English composition, for translations from the Classics, and for solutions of mathematical problems.

Theological Department.

THE Instructors in this Department are a Professor of Didactic Theology, a Professor of Sacred Literature, the Professor of Divinity in the College, and a Professor of the Pastoral Charge.

The time of admission is at the beginning of the collegiate year. It is desirable that those who join this Department should be present at the commencement of the first term. Those admitted to an advanced standing will be expected to have previously gone over the studies pursued by their respective classes.

The conditions for entrance are hopeful piety, and a liberal education at some College, or such other literary acquisition as may be considered an equivalent preparation for theological studies.

The terms and vacations are the same with those in the College.

The regular course of instruction occupies three years, and comprises the following subjects:

JUNIOR CLASS.—Hebrew Grammar, (Roediger's Gesenius, translated by Conant,) Conant's Hebrew Exercises and Chrestomathy, Principles of Sacred Criticism and Hermeneutics, Critical and Exegetical study of the Hebrew and Greek Scriptures, Critical and Exegetical Dissertations, Lectures by the Professor of Sacred Literature on some topics in Introduction to Theology, and in Exegetical Theology, Lectures by the Professor of Didactic Theology on Mental Philosophy including the Will.

MIDDLE CLASS.—Lectures by the Professor of Didactic Theology, on Moral Philosophy, Moral Government, Natural Theology, Necessity and Evidences of Revelation, and Systematic Theology. Exegetical study of the Scriptures and Dissertations continued.

SENIOR CLASS.—Lectures on the Structure and Composition of Sermons, and on Public Prayer. Criticism of Skeletons and of Sermons, Exercises in Extemporaneous Speaking and Preaching before the Class, Lectures on the Pastoral Charge, on Revivals of Religion, on the History of Modern Missions, and on Expository Preaching, Lectures on Elocution attended by Practice in the Delivery of Sermons.

There are weekly Debates in the Rhetorical Society, at which the Professor of Didactic Theology presides and in which the members of all the Classes participate.

The students have access to the College Library, and to the libraries of the several literary Societies in the College.

A building has been erected for the accommodation of students in which the rooms are free of rent; but each occupant is subject to a charge of \$3,50 a year for incidental expenses. No other charges are made to the students.

No funds have as yet been granted to this department for defraying the expenses of indigent students. In addition to the usual aid which may be derived from the American Education Society, there is an Association in this city whose object it is to assist those who are here preparing for the Ministry.

Law Department.

THIS Department is under the direction of a Faculty, consisting of the President of the College, and two Law Professors, to wit, Hon. CLARK BISSELL, LL. D., late Judge of the Supreme Court of the State; and Hon. HENRY DUTTON, late Judge of the New Haven County Court.

COURSE OF INSTRUCTION.

The students are required to peruse the most important elementary treatises, and are daily examined on the author they are reading, and receive at the same time explanations and illustrations of the subjects they are studying.

The School is divided into three reading classes. Each class is daily employed upon a lesson in the Class Book, and is separately examined, and every student can read in one or more of the three classes, as he finds himself able and inclined to perform the requisite labor.

Courses of Lectures are delivered by the Instructors, on all the titles and subjects of Common and Statute Law, and of Equity.

Three exercises, consisting of Lectures or Examinations of one hour each, are daily given by the Instructors, and at all of them each of the pupils is permitted to attend.

A moot court is held once a week or oftener, which employs the students in drawing pleadings, and investigating and arguing questions of law.

The students are called upon, from time to time, to draw declarations, pleadings, contracts, and other instruments connected with the practice of law, and to do the most important duties of an attorney's clerk.

They are occasionally required to write disquisitions on some topic of law, and collect the authorities to support their opinions.

The more advanced students are assisted in the study of the laws of the particular States in which they intend to establish themselves.

The following are some of the principal studies of the course: Blackstone's Commentaries; Real Estate; Personal Property; Contracts; Domestic Relations; Parties to Actions; Forms of Actions; Pleading; Evidence; Nisi Prius; Bills of Exchange and Promissory Notes; Insurance; Shipping; Corporations; Criminal Law; Equity; Constitution of the United States; Law of Nations Conflict of Laws.

The students are furnished with the use of the elementary books, and have access, at all times, to the College libraries, and to a law library, comprising every important work, both ancient and modern. The law library contains the Revised Statutes, the Reports and the Digests of all the States in the Union.

The course of study occupies two years, allowing eight weeks vacation each year. The months of May and September are

now allotted for vacations; but by an arrangement made the present year, the vacations in this Department will hereafter coincide with the Spring and Summer vacations in the Academical Department. There is also a recess of about two weeks near the first of January in each year.

The terms for tuition, with constant use of text-books, and ordinary use of the library, are as follows, payable in advance, unless for satisfactory reasons. For the whole course of two years, one hundred and fifty dollars. For one year, eighty dollars. For less than one year, ten dollars a month. For more than one year and less than two years, seven dollars a month after the first year.

The degree of Bachelor of Laws will be conferred by the President and Fellows, on liberally educated students who have been members of the Department eighteen months, and have complied with the regulations of the Institution, and passed a satisfactory examination. Those not liberally educated, will be graduated upon similar conditions, after two years' membership; and members of the Bar, after one year's membership subsequent to their admission to the Bar.

Medical Department.

THE Instructors in the Medical Institution, are a Professor of Chemistry and Pharmacy, a Professor of the Theory and Practice of Physic, a Professor of Surgery, a Professor of Obstetrics, a Professor of Anatomy and Physiology, and a Professor of Materia Medica and Therapeutics.

The annual course of lectures commences on the last Thursday of September, and continues sixteen weeks. The lectures are so arranged, that at least five are given daily, and a part of the time six.

A Medical and Surgical Clinique is held every week, during the lecture term, at which a variety of cases is presented, for consultation and operations, in presence of the class.

The fees, which are required in advance, are \$12,50 for each course, except that on Obstetrics, which is \$6, with a Matriculation fee of \$5—the whole amounting to \$73,50. The tickets of all the Professors, or a part, may be taken any one season. Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another incorporated Medical Institution, will be admitted to a full course on paying the Matriculation fee. Board, with room, &c., may be obtained at from \$2,25 to \$3 per week.

The students are entitled to gratuitous admission to the course of Lectures on Anatomy and Physiology, given to the Senior Class, by Professor KNIGHT, during the spring term in the Academical Institution, and to the courses by Professor SILLIMAN, on Mineralogy, during the spring, and on Geology, during the summer. They also have admission to the various other Lectures in the Academical Institution, on paying the fees of the several courses.

The Medical College building is spacious and commodious. The Anatomical Museum, already one of the most valuable in the country, is annually receiving important additions. The arrangements for Dissections are ample, and subjects are supplied on the most reasonable terms. The Anatomical rooms, the Cabinet of the Materia Medica, the Museum of the Yale Natural History Society, the Cabinet of Minerals, and the Libraries of the Medical and Academical Institutions, are all open to students.

By the Statutes of the State, the requirements for the Degree of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' for those who are; attendance upon two full courses of Lectures, either in this Institution, or some other of a similar character; the attainment of twenty one years of age, and a good moral character; together with a satisfactory examination before the Board of Examiners for the State, at which the candidate must present a dissertation upon some subject connected with the Medical Sciences, written in a form prescribed by the Faculty. This Board consists of the

Medical Professors of the College, *ex officiis*, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. The graduation fee is \$15—fee for a license, including diploma, \$4.50. The examination is held immediately after the close of the Lectures, when the licenses are granted and the degrees conferred.

Department of Philosophy and the Arts.

It has long been felt at Yale College to be important to furnish resident graduates and others, with the opportunity of devoting themselves to special branches of study either not provided for at present, or not pursued as far as individual students may desire. With the hope of accomplishing this object more fully and systematically, the Corporation at their meeting in August, 1846, appointed a Committee to take this subject into consideration, and in accordance with the report of the Committee, at their next meeting in August, 1847, established a new department, called the Department of Philosophy and the Arts. The branches intended to be embraced in this department are such in general as are not included under Theology, Law and Medicine; or more particularly, Mathematical Science, Physical Science and its application to the Arts, Metaphysics, Philology, Literature and History. Instruction in this department may be given by professors not belonging to the other departments, by the Academical professors, and by such others as the President and Fellows may approve. The Instructors for the year, with the President, compose the Faculty of the department. The instructions in the department are intended for graduates of this and other Colleges, and for such other young men as are desirous of pursuing special branches of study; but it is necessary for all students in philology and mathematical science, that they be thoroughly grounded in those studies.

A School of applied Chemistry is embraced within this department, of which a more particular notice may be found below. For the terms of entrance upon the several courses in the department, application may be made to the several instructors.

Professor SILLIMAN's lectures on Chemistry, Mineralogy and Geology, will be open to the students of this department.

Professor GIBBS proposes to give lectures on some points of general Philology.

Professor OLMSTED's lectures on Natural Philosophy and Astronomy will be open to the students of this department. He will also, if desired, give private instruction in Experimental Philosophy, and Astronomical Calculations.

Professor STANLEY proposes to instruct in the Calculus or Analytical Mechanics.

Professor PORTER will instruct in Psychology, Logic and the History of Philosophy.

Professor THACHER will instruct twice a week in the Georgics of Virgil, should a class be formed.

Professor SILLIMAN, Jr., will instruct in Elementary and Analytical Chemistry, Mineralogy and Metallurgy.

Professor HADLEY will instruct twice a week in Thucydides or Pindar.

Professor NORTON will instruct in the applications of science to Agriculture and in Analytical Chemistry.

SCHOOL OF APPLIED CHEMISTRY.

Professors SILLIMAN and NORTON, have opened a Laboratory on the College grounds, in connection with their departments, for the purpose of practical instruction in the applications of science to the arts and agriculture. Every facility will be afforded to those who desire to obtain special instruction in general and in analytical Chemistry and Mineralogy.

A course of lectures on the connections of science with Agriculture, by Professor NORTON, will commence in January and continue about two months and a half, at the rate of three lectures in each week.

Mr. WILLIAM J. CRAW is the first assistant, and is aided by a sufficient number of others to attend to all the wants of the students.

Professor SILLIMAN, Jr., proposes to instruct in Mineralogy and applied Chemistry during the summer term.

A mineralogical cabinet is deposited in the Laboratory for the use of students in this department; they will also have access to the College mineralogical and geological cabinets and to the libraries.

The text-books used will be Dana's Mineralogy, Silliman's Chemistry, Fresenius's Analysis, Will's Outlines, Rose's Chemical Analysis.

The lectures on Chemistry by Professor SILLIMAN, Senior, commence the first week of the first term, and continue through the term. His lectures on Mineralogy are delivered during the first or second term, and those on Geology commence the first week of the third term and continue six weeks. The lectures of Professor OLMSTED, on Natural Philosophy, commence the third Tuesday of November, and continue at the rate of two a week nearly through the year. His lectures on Astronomy and Meteorology, commence at the beginning of the second term, and continue, daily, for about seven weeks.

¶ Students who enter this Department may hereafter have in view a degree to be given when they have completed a certain course of study.
